**KEY:**

**Question ## (received from public, reference ##)**

- Response (provided by Glenn County RCD)

**Question 1**

**RFP states: This Project site area is remote and not easily accessible. Is there a VEHICLE access road to the project site for equipment fuel and fire suppression?**

- There is a vehicle access road for high clearance, four-wheel drive vehicles only.

**Question 2**

**What are the slope percentages in the project area? Is there a slope description?**

- Approximately 10 acres of the project area has a slope less than 10 degrees, ~ 20 acres of the project area has a slope less than 20 degrees and ~ 8 acres of the project area has a slope less than 30 degrees.

**Question 3**

**Are there any visible rock outcroppings in the project area?**

- Yes, there are visible rock outcroppings.

**Question 4**

**The RFP states 40 acres. The map shows a red project area drawing. What is the distance and width of the requested fuel break? Will the expected mastication area be flagged or marked?**

- The fuel break is ~9,000' in length and 200' in width. Start and end of the project can be marked at selected contractor's request.

*"Funding for this project provided by the California Department of Forestry and Fire Protection."*
