

# GLENN COUNTY

## RESOURCE CONSERVATION DISTRICT

### **REQUEST FOR PROPOSALS (RFP)**

Contractor to provide Fuels Treatment For  
Fuels Reduction Project:

Mechanical Treatment 100 acres

Manual Treatment 21 acres

Herbicide (Spot) 121 acres

**Questions Due: April 15, 2022**

**Responses Posted on Website: April 20, 2022**

#### **Question 1**

**Can you provide the prevailing wage determination?**

- Glenn County RCD has determined prevailing wage is not required for this project as the project is similar in scope to a previously issued DIR Coverage Determination.

#### **Question 2**

**Can the experience required come from previous work history outside of the current venture?**

- Provided experience can be verified, any relevant experience will be taken into consideration, including experience from previous employment.

#### **Question 3**

**Is there potential for a site visit?**

- Yes, a site visit can be scheduled for the week of April 25. Any potential applicant should contact Glenn County RCD to schedule a site visit limited to no more than 60 minutes. For further information or to schedule a site visit, please contact Greg Conant – Forest Health Program Specialist 530-330-5002; [greg@glenncountyrcd.org](mailto:greg@glenncountyrcd.org)

#### **Question 4**

**Can the performance and payment bonds be issued and renewed on a yearly basis?**

- Pending approval of bonds by Glenn County RCD, performance and payment bonds may be renewed on a yearly basis.

*“Funding for this project provided by the California Department of Forestry and Fire Protection’s Fire Prevention Program as part of the California Climate Investments Program.”*

*“STONY GORGE HAZARDOUS FUELS REDUCTION, is part of California Climate Investments, a statewide program that puts billions of Cap-and-Trade dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment— particularly in disadvantaged communities. The Cap-and-Trade program also creates a financial incentive for industries to invest in clean technologies and develop innovative ways to reduce pollution. California Climate Investments projects include affordable housing, renewable energy, public transportation, zero-emission vehicles, environmental restoration, more sustainable agriculture, recycling, and much more. At least 35 percent of these investments are located within and benefiting residents of disadvantaged communities, low-income communities, and low-income households across California. For more information, visit the California Climate Investments website at: [www.caclimateinvestments.ca.gov](http://www.caclimateinvestments.ca.gov).”*
