Cap and Trade  
Dollars at Work

Funding for this project is provided by the California Department of Forestry and Fire Protection as part the California Climate Investments (CCI) Program. The Tehama-Glenn Fire Safe Council Fire Prevention Education Program is part of California Climate Investments, a statewide program that puts billions of Cap-And-Trade Dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment-particularly in disadvantaged communities. The Cap-and-Trade program also creates a financial incentive for industries to invest in clean technologies and develop innovative ways to reduce pollution. California Climate Investments projects include affordable housing, renewable energy, public transportation, zero-emission vehicles, environmental restoration, more sustainable agriculture, recycling, and much more. At least 35 percent of these investments are located within and benefiting residents of disadvantaged communities, low-income communities, and low-income households across California. For more CCI information visit: [www.caclimateinvestments.ca.gov](http://www.caclimateinvestments.ca.gov).
